#### FOOT BALL FATALITIES NUMBER NINETEEN

Casualties of 1905 Season Far Surpass any Previous Record, According to Statistics of New York World.

According to the New York World, all records for foot ball accidents were surpassed this year. Nineteen lives were sacrificed, exceeding by six the black record of 1903, while the number of casualties greatly surpassed that of any previous year.

Here are the foot ball fatalities in the last 13 years:

Year	Deaths	Year	Deaths
1893	8	1900	4
1894	7	1901	9
1895	4	1902	12
1896	9	1903	13
1897	10	1904	11
1898	8	1905	19
1899	11		

Of the 19 youths slaughtered, 11 were high school players. Ten were boys of 17 and under, and three were seasoned college men, presumably fit for the rigors of the game. The list of severely injured will reach over 150, which exceeds all previous records by a score or more.

The first death on record of a female foot ball player occurred during this season, the victim being Miss Bernadette Decker, 18 years old, daughter of a leading politician of Cumberland, Md. In a rough scrimmage among girls of her school she received injuries that developed into acute peritonitis.

#### List of the 19 Dead.

## N. Y. LIFE GENEROUS

### Habitually Loaned Non-Taxable Bonds for Tax Evasion

#### NO INTEREST ON \$700,000

Securities, Central Bank Says, Were for the Merchants' Trust Co., a Client—N. O. Traction Deal Probed.

New York, Nov. 29.—Lawyer Hughes, inquirer of the insurance investigating committee, yesterday developed an interesting sequel to the story told Monday evening by Cashier Banta, of the New York Life—of \$700,000 in New York City bonds taken from the company's vaults and transferred to the Central National Bank for several days on receipt of a cashier's check.

This transfer was made at the time of readjustment of personal taxes, and it was assumed that the accommodation was to enable some one to evade taxation to the extent of \$700,000—the city bonds being non-taxable.

E. B. Randolph, treasurer of the New York Life, corroborated this assumption on the stand. He admitted that it had been a practice with the New York Life to make such transactions as this to help out friends seeking to evade taxation—though he had never countenanced the practice.

The witness corrected Cashier Banta on a point important to himself. He was not treasurer, he said, at the time of the Central Bank incident. Mr. Gibbs, now dead, was treasurer, and he (Randolph) opened the vault by direction of Gibbs, when the securities were taken out and the bank check substituted. The company received no compensation for the \$700,000 loan.

An important point developed when the witness announced that the bank had declared, in explanation, that it had obtained the \$700,000 of city bonds for a client—the Merchants' Trust Company. Mr. Randolph said he never countenanced such transactions, and they did not prevail under his administration.

Mr. Hughes probed further into the alleged purchase of \$1,025,000 of New Orleans Traction securities from the New York Life by W. S. Fanshawe, bond broker for J. P. Morgan & Co., under an arrangement engineered by George W. Perkins.

Mr. Fanshawe testified that the New York Life lent him the entire amount with which to pay for the bonds purchased from itself.

James E. Keeler, formerly a clerk and assistant secretary of the New York Securities and Trust company, testified that in 1900 the trust company had paid \$18,000 to "Judge" Andrew Hamilton out of the proceeds belonging to the policy holders of the New York Life, according from the sale by the New York Life of debentures issued by the Union Savings Bank and Trust Company of Spokane, Wash. The witness could not explain why Judge Hamilton should have been paid this \$18,000.

The deposition of George H. Squire of the Equitable's "George H. Squire, trustee," account, was read. It was a very lengthy document, but contained little that was new and nothing of sensational interest.

#### IN DOUBT TO LAST.

Was Bowling Match Last Night, But Eagles Beat Eureka.

The Eagles captured two strings from the Eureka in an intercity bowling match at Alexander's alleys last evening. The scores were the closest that have been played this season, the result of the deciding string being in doubt to the last minute. Nuts rolled high single of 207, and Smith had high three string total of 536.

#### WEALTHY CONTRACTOR FAILS.

Seth Perkins of Boston Has Liabilities of \$410,334.32.

Boston, Nov. 29.—Seth Perkins, well known in Boston and New York as a contractor and reputed to be wealthy, a partner of the Tammany leaders, John C. Sheehan and John J. O'Brien, filed in the United States district court yesterday a voluntary petition in bankruptcy. He has liabilities of \$410,334.32 and assets scheduled as "uncertain."

The assets consist of a claim against the United States government for the construction of the dry dock at the Charlestown Navy Yard, the value of which is uncertain. The books belonging to the petitioner are in the hands of the City Trust, Safe Deposit & Surety company of Philadelphia and the papers are held by O'Brien and Sheehan of New York.

Mr. Perkins' Boston office is at 17 Milk street. He lives at 22 Greenville street, Roxbury. His last big contract was the dry dock at Charlestown, which was finally finished by the government. Mr. Perkins was superintendent of sewers in Boston in the eighties, and since that time has been in the general contracting business. He has handled many large contracts.

## USEFUL FACTS

About Coughs, Colds and Branchial Troubles Given to the People of Barre by Our Druggists, Rickert & Wells.

"In conducting a large drug business we naturally meet a great many people at this season of the year who suffer from coughs, colds and bronchial troubles."

"As these troubles are easily controlled if the right means is taken, we want to say to the people of Barre that we guarantee our cod liver oil preparation, Vinol, will cure hanging on colds, stubborn coughs, bronchial and lung troubles, quicker than any preparation we have ever sold because it is the most perfect preparation of cod liver oil ever compounded. It contains no oil or grease to clog the system and upset the stomach, yet it does contain every one of the fifty odd medicinal elements actually taken from fresh cods' livers in a highly concentrated form, and is therefore the best cod liver preparation obtainable. Vinol is not a patent medicine; everything in it is named on the back label of the bottle and you know what you are taking, so without reservation we endorse and guarantee Vinol to strengthen every organ in the body to do its work as nature intended—to cure coughs, colds, bronchial troubles, increase the appetite, build up the run down, tired and debilitated, and create strength and renewed vitality for the aged."

"If Vinol fails to do what we say we will refund every dollar paid for it. You know us and know we will do as we agree." Rickert & Wells, Druggists.

#### NO MORE TALKING.

Silence in Future on the Rate Views of Administration.

Washington, D. C., Nov. 29.—It developed yesterday that the subject under discussion at the White House conference of Monday night, which was participated in by the president, Secretary Root, Secretaries Taft and Bonaparte, Senator Knox and Commissioner of Corporations Garfield, was the projected legislation affecting railroad rates.

It has been positively decided that there shall be no further expression of the administration's views on this subject, pending the publication of the president's message to Congress, in which it is treated at great length.

It is also learned that there has been no change in the president's view as to the best form of rate legislation, as a result of propositions recently made public.

Senator Dolliver of Iowa, member of the committee on interstate commerce, talked with the president briefly yesterday.

After his interview the senator remarked, when asked about rate legislation: "We are moving toward a practically unanimous thing for the president's policy."

Representative Hinshaw of Nebraska, who also talked to the president, declared: "The people of Nebraska are unanimous in support of the president's position as to rate legislation."

#### TO STOP CERTIFICATE.

Plan Now to Stay Granting of One to Mayor McClellan.

New York, Nov. 29.—There was a lull in the recent contest yesterday. At Mr. Shearn's office it was learned the order would not be presented to Justice Amend until 2 o'clock yesterday afternoon, and it would provide for the inspectors concerned carrying out the court's decisions on Friday.

Mr. Shearn refused to indicate the number of election districts in which further recounts are to be asked for. It is expected an effort will be made to recount the ballots in at least three-quarters of the districts (1,116) in New York county.

The order to be issued by Justice Amend, Mr. Shearn said, will not contain provision for a stay against an official canvass of the vote. If any such step becomes necessary, it will be taken, but Justice Amend's first order practically prevents the issue of a certificate of election to the mayor for the present.

## ULTIMATUM TO MUTINEERS

### Government Threatens Force at Sevastopol.

#### TROOPS MAY REFUSE FIRE

"Loyal" Part of Fleet Won't Obey Its Orders—Fear of Widespread Sedition Makes Trouble on the Bourse.

St. Petersburg, Nov. 29.—The government yesterday announced that unless the mutineers at Sebastopol surrender before midnight, armed force will be used. But there is grave doubt here whether Gen. Baron Moller Gakomeiskie, commander of the 7th army corps, dare put the soldiers to the test of firing on their comrades.

Although the crews of the loyal ships refused to join the mutineers, they declined, according to the dispatches, to carry out orders to put to sea. This may indicate their purpose to stand by and meet force with force, in the event of the soldiers and artillery ashore firing on the sailors' barracks.

There was an exceedingly panicky feeling on the bourse yesterday, Imperial 4s again dropping to 84. Government lotteries and industrials fell several points between quotations. The markets were affected by fear of the spread of wholesale sedition in the army. The radical papers are filled with reports of meetings of soldiers in different places, and the adopting of resolutions calling for the public trial of officers, an increase of pay, a cash allowance in place of food and clothing, and a reduction of the term of service to four years.

The similarity of the resolutions is proof that they were inspired from a common source and shows the growth of the revolutionary propaganda among the troops.

The reports from the Manchurian army are also disquieting. Many officers and soldiers involved in the plot at Harbin have been arrested and a number of agitators who arrived there from European Russia were caught redhanded by Gen. Linievitch.

From Tiflis and Kars, Trans-Caucasia, some reports that the soldiers are taking a stand against firing on the people, and private dispatches from Odessa say the soldiers and sailors, at a meeting held at the university Monday night, decided, in the event of the Sebastopol mutineers bringing the Black sea fleet to Odessa, to join the mutineers and take possession of the city.

#### KOREA A GREAT TRUST.

Rights of the Natives Will Be Guarded Assuredly.

Seoul, Nov. 29.—Marquis Ito, in summing up the Korean situation, said to the Associated Press yesterday:

"The Emperor of Japan sent me to arrange a new treaty, to which the Emperor of Korea has agreed, although the proposition met with some opposition from other sources."

"Although Korea has transferred her conduct of her foreign relations to Tokyo, she retains control of her internal administration."

"We accept a great trust and a heavy responsibility and the foreign powers consent to the new arrangement."

"The American government has already announced the withdrawal of its legation, and others will follow. But America wants us not to abuse the natives. It is probable that the Japanese will advise those in control of Korean departments of the government, but they will not be connected with the management."

"The Japanese government or its resident general will deal with questions relating to foreign affairs, but it is not yet known who will be appointed resident general."

"However, those Japanese who expect that the coming of this representative will signalize drastic or decisive measures for the exploitation of this country, disregarding all the rights of the natives, will find themselves mistaken."

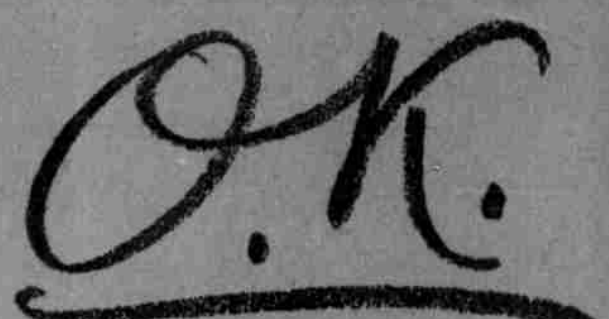

"We wish to benefit ourselves, but our greatest return will be derived from insuring the welfare of the people for whose destinies we now stand responsible."

#### CONDITIONS WERE GOOD.

General F. D. Grant Makes Hasty Inspection of Fort Ethan Allen.

Fort Ethan Allen, Nov. 28.—Brig-Gen. Frederick Dent Grant, U.S.A., commanding general of the department of the East and one of the most prominent army officers in the service, accompanied by Colonel Valery Harvard, chief surgeon of the department, and Capt. William T. Johnson, 15th cavalry, the Fort Ethan Allen officer who gained fame as the commander of Troop G, now acting aide-de-camp to the commanding general, yesterday afternoon inspected this post.

As the commanding general passed the drill ground at the fort the entire command of the military post was drawn up in command of Major Wilbur E. Willard. The general arrived at Fort Ethan Allen after retreat had sounded and therefore the salute accorded an officer of his rank was not fired. The 23rd battery was ready to give this salute if General Grant arrived before retreat. As the commanding general passed the drill ground, the troops presented sabres, standards and guidons were lowered and in the twilight the spectacle presented was a pretty sight. Colonel Wallace, post commander, met General Grant and his party at this point and they proceeded to the home of the post commander, while the command was dismissed.
